# PRESS RELEASE

## S&S Power Group Announces Consolidated Financial Results for the Quarter Ended 30th June 2026

**Chennai, August 17:** S&S Power Switchgear Limited ("S&S Power" or the "Company") reported its financial results for the first Quarter ended 30th June 2026 ("Q1 FY27" or the "Quarter").

**Key Highlights**

*Amt in INR Crores*

| | Q1 FY27 | Q1 FY26 |
|---|---|---|
| **Order Book** | 37.59 | 87.20 |
| **Revenue** | 71.65 | 60.41 |
| **EBIDA** | 2.20 | 4.10 |
| **EPS (in INR)** | (0.21) | 1.43 |

S&S Power reported a healthy start to FY27, with consolidated revenue rising to ₹71.65 crore from ₹60.41 crore in the corresponding quarter last year, reflecting continued execution across its core businesses. While order inflows and operating profitability were lower during the quarter due to the timing of customer order finalisation and the execution mix, the Company continues to see robust underlying demand across Transmission & Distribution, Protection & Control, and Industrial Automation, with performance expected to strengthen over the coming quarters.

**Commenting on the results, Krishnakumar Ramanathan, Group CEO & Managing Director, S&S Power said,** *"Pleased to report a stable first Quarter from the S&S Power Group, with a strong growth in Revenues over the comparable period from last year. New orders booked in the quarter were lower due to delays in order finalisation from customers and are expected in the forthcoming quarter. EBIDA for the quarter was lower than the comparable quarter, primarily due to change in the delivery mix, with lesser automation orders getting executed in the current quarter.*

*The delivery mix is expected to normalize based on customer schedules over the second half of the financial year. The EPS was further impacted due to reversal of deferred tax assets in the quarter. Our three companies remain in a positive market environment, with robust demand and a healthy order backlog across our sectors of Transmission & Distribution, Protection & Control, and Industrial Automation for the metals sector.*

*We have commenced the second year of our 3-Year strategic plan, as we continue to invest in all-round capabilities to strengthen our portfolio and market reach. I would like to thank our promoters and our board of directors for their guidance and belief, and all our employees across Chennai, Kolkata and the UK for their dedication and hard work that has made these results possible."*

### About S&S Power

S&S Power (BSE Scrip Code 517273, NSE Symbol S&SPOWER), is a global engineering and technology group with over 60 years of legacy. We provide reliable Medium Voltage (MV) and High Voltage (HV) Disconnectors, Protection and Control Panels and dedicated Pot Controllers for the Aluminium

Industry. Our products undergo rigorous testing to meet international standards, ensuring high reliability and safety. The company operates through its subsidiaries, S&S Power Switchgear Equipment Limited (SSPSE), Acrastyle Limited (UK), and Hamilton Research & Technology Private Limited (HART). The quality and robustness of our solutions have won us clients in over 50 countries.
